Position title: Intern — Capria VentureBasecamp

Reports to: Ramya Srinivasan, Program Director

Location: Bangalore, India

Assignment: Paid internship; with potential to hire

Suggested Start and Duration: January 2019, 6 months

Capria VentureBasecamp Overview

We're on a mission to dramatically transform the global entrepreneurial landscape and help more entrepreneurs around the world build more sustainable, *investable* businesses. VentureBasecamp is a productized program to train incubators on how to better upskill entrepreneurs on how to develop the fundamentals of strong startups. Read more here: <http://venturebasecamp.co/>

Funded by USAID, VentureBasecamp was piloted as a part of Unitus Seed Fund's pioneering Speed2Seed initiative and was validated with leading incubators and entrepreneurs in 2016. VentureBasecamp is a unique, productized plug-and-play entrepreneurial capacity-building program for incubator managers that helps startups grasp the foundations of building strong, investable businesses.

We're doing this by developing an online and offline training program for incubator managers and entrepreneurs that leads them through the fundamentals of how to structure superior programs to help entrepreneurs through the entire startup journey, from idea to exit. The team is led by veteran entrepreneurs with over 40 years of experience in over 250 startups that have gone on to raise over \$750 million in venture capital funding and have generated over \$20 billion in market capitalization. We're bringing everything they know to as many entrepreneurs as we can.

VentureBasecamp is part of Capria Ventures, a global financial services innovator investing in the "missing middle" finance opportunity in emerging markets. Capria manages multiple investment funds, a fund manager advisory and accelerator, and the leading global network of impact fund managers. Capria is focused on delivering superior profits to investors along with social and environmental impact at scale, with a goal of unlocking over USD \$500 million in impact capital by 2021 and positively impacting the lives of millions.

Overview of Responsibilities & Objectives

Do you want to be part of a unique enabler of the entrepreneurship ecosystem and get a ring side view of the process of creating investable startups in emerging markets? Do you want to help build something that will change the lives of entrepreneurs solving some of the world's biggest problems?

Our team is looking for an intern who will work with us in a very entrepreneurial manner. This opportunity is an excellent fit for a savvy recent graduate looking to get some solid, differentiated work

experience in entrepreneurship, impact investing, and international development. The work is project-based and iterative, like how one might approach a consulting job or even an early-stage startup.

The Role

As an intern, you will be working closely with the team in areas of:

1. **50% Entrepreneurship Program Delivery** – support and manage program rollout for select VentureBasecamp partnering organizations in engaging their startup cohorts in the VentureBasecamp program.
2. **40% Curriculum Development** - creation of engaging digital learning assets for entrepreneurs and incubator/accelerator managers.
3. **10% Business Development** – support the team in scaling the program.

Experience and Capabilities

The most vital areas of experience for a successful candidate include:

- **Education and Prior Experience:**
 - Undergraduate degree with concentration in business or communications, or MBA desired.
 - Proven commitment to and understanding of startups, entrepreneurship, entrepreneurial ecosystem development and impact.
 - Experience of being part of an incubator/accelerator program is highly preferred, either as part of a startup or as part of the incubation/acceleration team.
 - An understanding of startups, incubators and accelerators is highly desired.
 - Experience in online learning/video production is an added bonus.
 - Relevant experience in for-profit sectors.
 - Experience living or working in emerging markets is highly desired.
- **Skills:**
 - Outstanding communication skills, both written and verbal, creativity, and people skills.
 - A digital native is required—someone who is tech-savvy and has experience working with web / cloud-based applications and tools.
 - Strong organizational skills, ability to multi-task and work in a fast-paced environment.
- **Languages:**
 - Fluent in English; Hindi a plus.

Most of all, a passion for entrepreneurship and an entrepreneurial mindset is necessary.
